

Donostia, 2019-10-28

To whom it might concern,

After reading the report from Dr. Andrea Horbach about her STSM stay, I am pleased to approve it. The report summarizes very well the work done by Dr. Andrea Horbach during the STSM "Evaluation of Reading Comprehension Questions via Crowd-Sourcing" starting at 14/09/2019 and ending at 29/09/2019.

The overall goal of the STSM is clearly described and the main outcomes presented. As said in the report, this fruitful collaboration has some remaining tasks, and the results will be submitted as a LREC paper. Moreover, new collaborations related to educational NLP have been planned for the future.
