

# WG 4 – Overview and Planning

enetCollect Core Group Meeting  
June 2017 @ University of Ljubljana

Funded by the HORIZON 2020 Framework Programme  
of the European Union

## WG 4 Lead and Vice-Lead

**Toma Tasovac (Lead)**  
Belgrade Center for Digital  
Humanities

...

**Matthias Kunkel (Vice)**  
ILIAS open source e-Learning e.V.  
Cologne

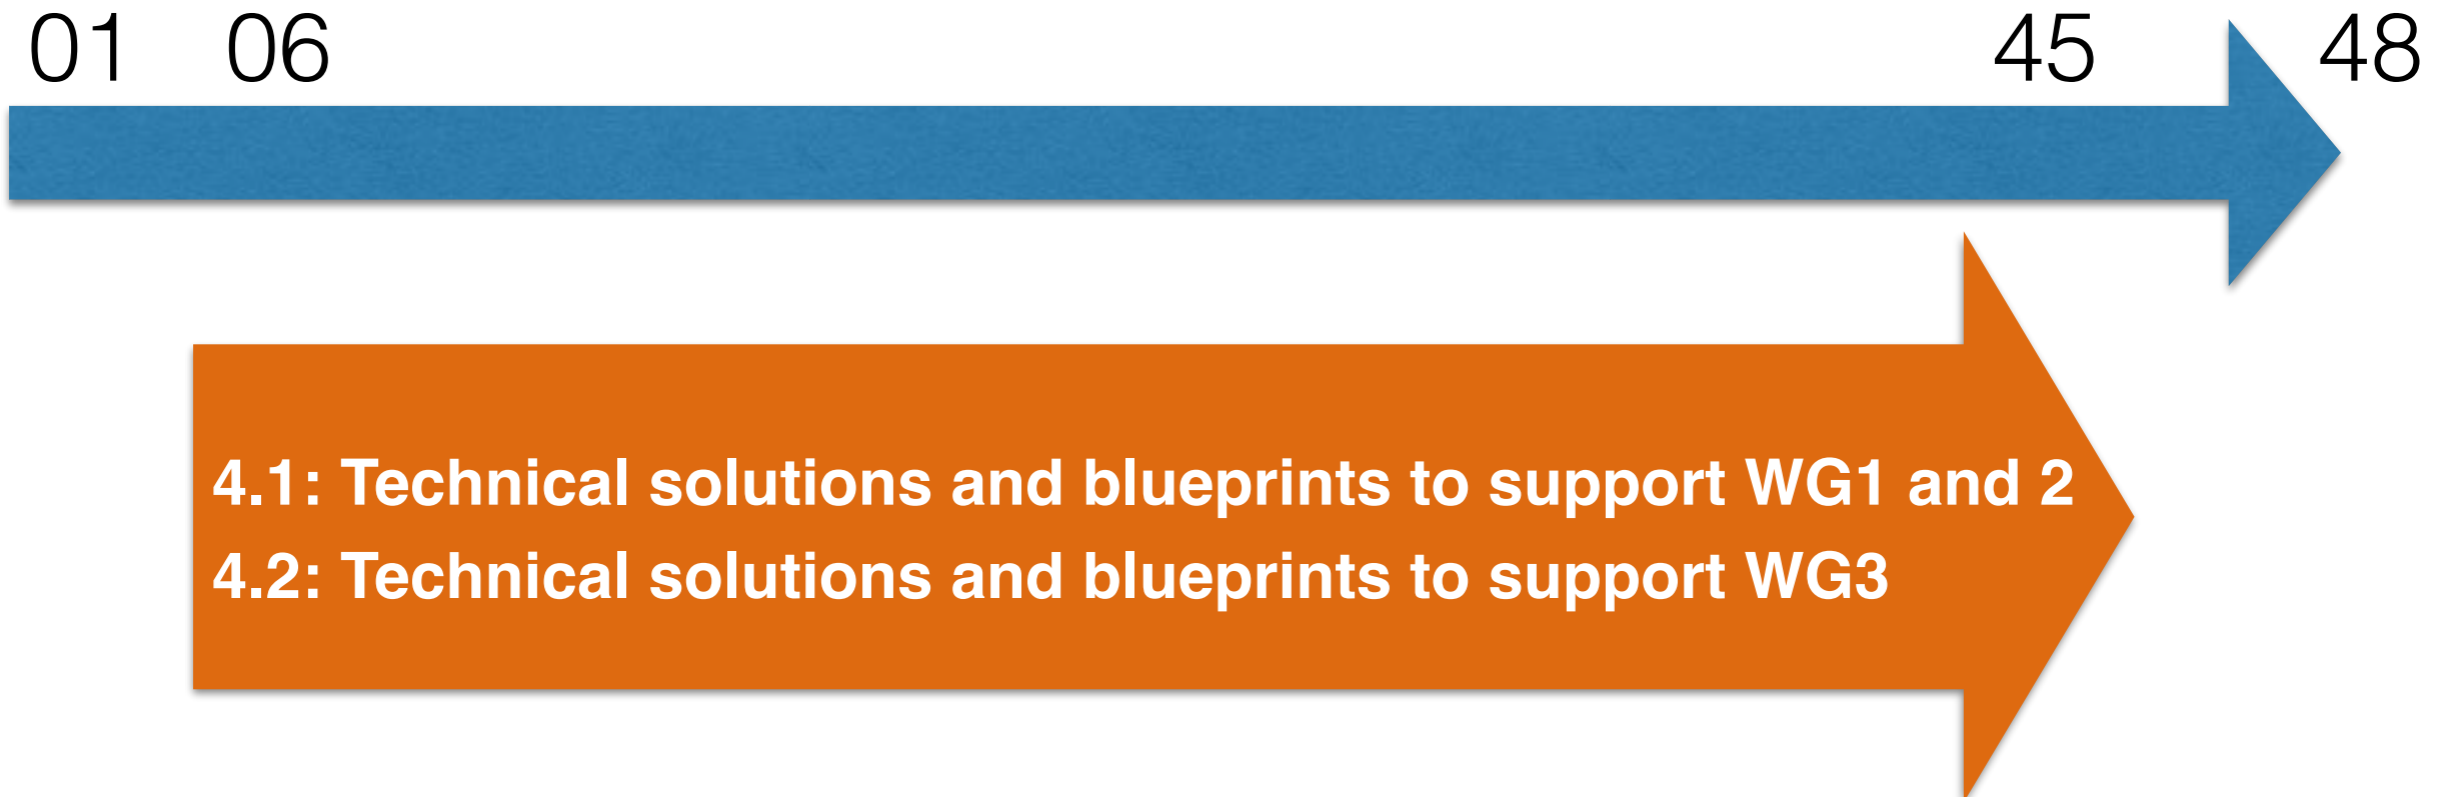

...

## About WG 4

*WG 4 – Technology-oriented specifications for a flexible and robust solution* is a supporting and reacting WG

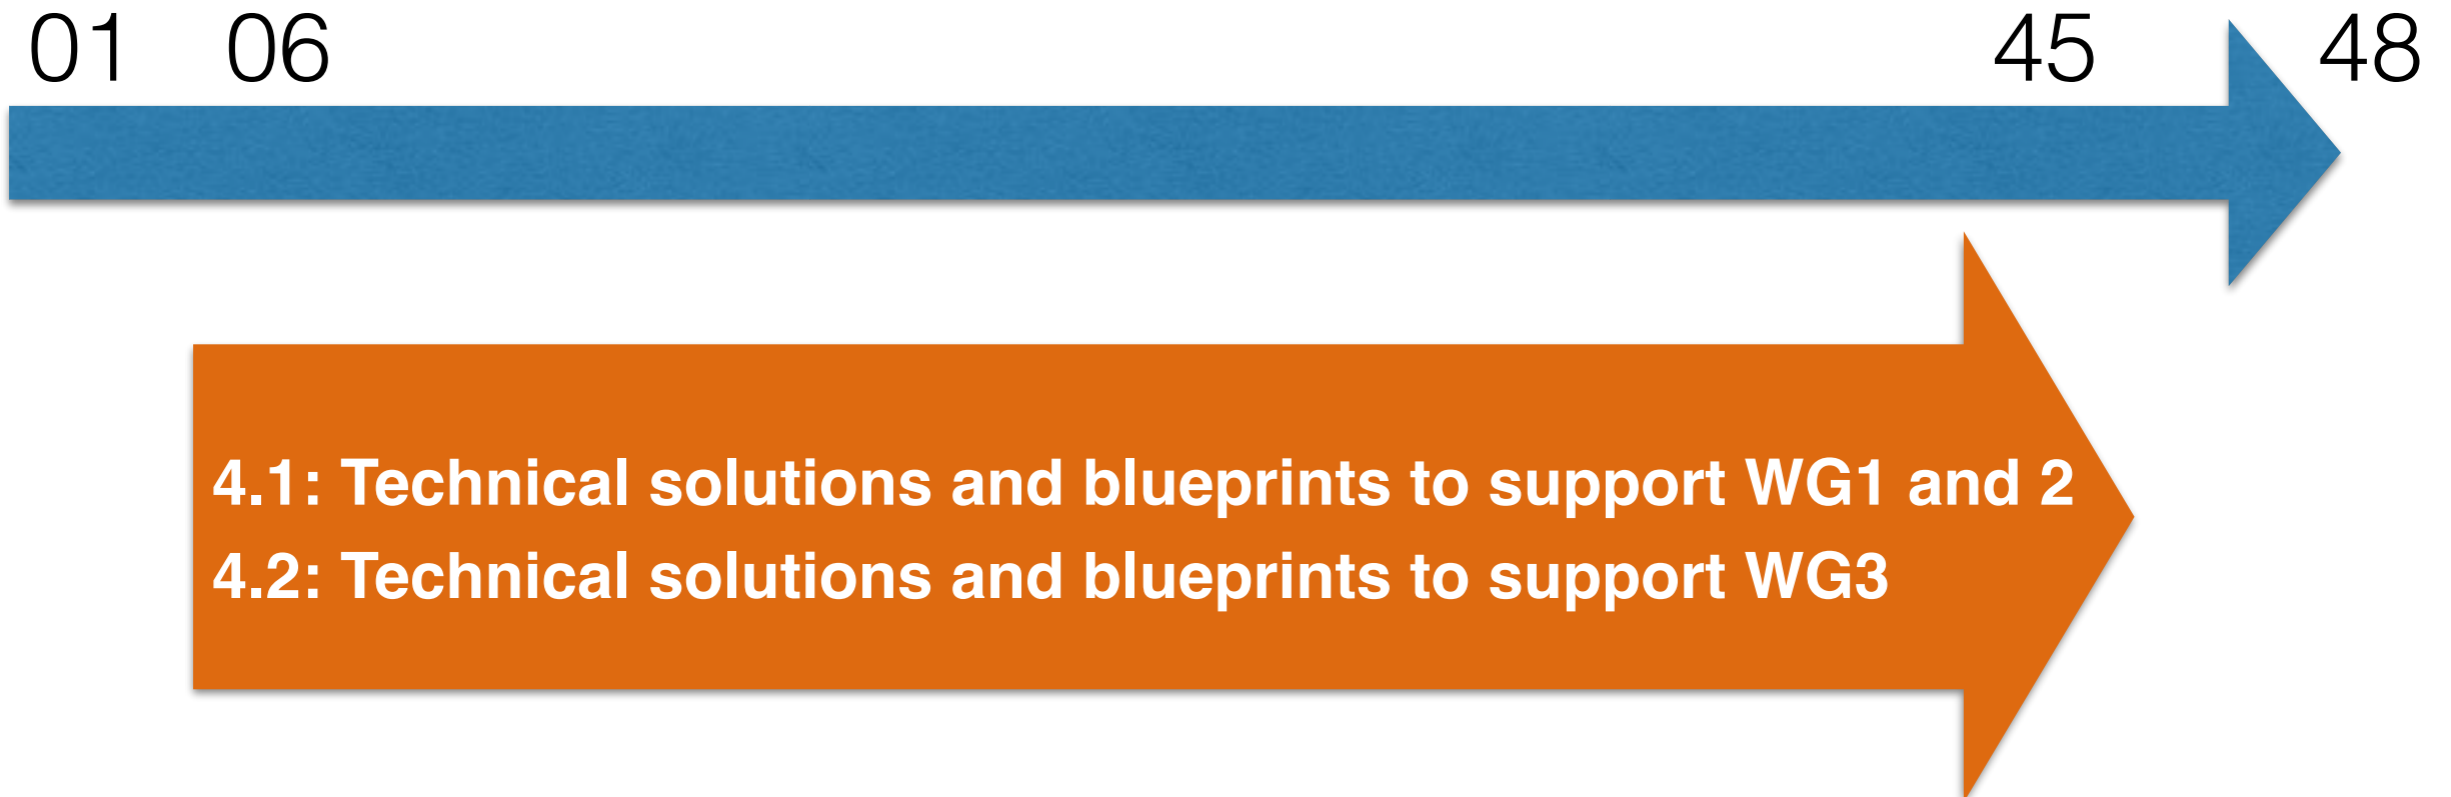

- Aims: creating the technical specifications to support the functional demands of WG1, WG2, and WG3
- Studying technical options
- Creating blueprints

## WG 4 : Schedule

- D.4.1a - Technology-oriented specifications and blueprints to support WG1 and WG2
- D.4.1b - Expert evaluation of specifications and blueprints to support WG1 and WG2

## WG 4 : Schedule

- D.4.2a - Technology-oriented specifications and blueprints to support WG3
- D.4.2b - Expert evaluation of specifications and blueprints to support WG3

## Collaboration with other WGs

- WG4 needs input from WG1-3 to fulfil its tasks and produce promised deliverables
- Successful collaboration requires good communication process between WGs
- Suggestion:
  - ▶ Every WG (1-3) declares one member as contact person who is reporting to WG 4
  - ▶ WG 4 can contact reporter in case of questions and additional needed information

# Collecting and Specifying Requirements

- WG 1|2|3 writes down requirements for a possible technical solution
  - What is the current problem and what could be a solution?
  - Description from the user's point of view only!
  - No technical description or software specification necessary.
- WG 4 will transform these requirements in documents.
  - Identifying existing solutions to solve the problem
  - Specifying software developments to be implemented in a second step

## Next Steps

- WG 4 will prepare a technical solution to collect requirements in the WGs and to communicate them easily.
  - Software-based
  - Structured documents
- WG 4 will present this workflow and introduce other WGs in how to use it.
  - Screencast
  - Short presentation in Bolzano

## Contact to WG 4
