

Statistics on enetCollect members

In enetCollect two main communication channels are used to exchange information and actively build the network: the **enetCollect-all mailing list**, the **WG mailing lists**, and the **ILIAS intranet**.

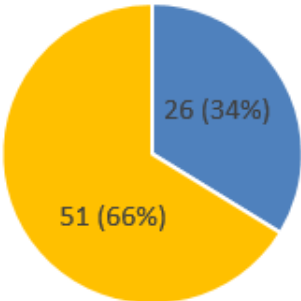

The enetCollect Action was started on 07/03/2017.

EnetCollect member statistics by end of February 2018

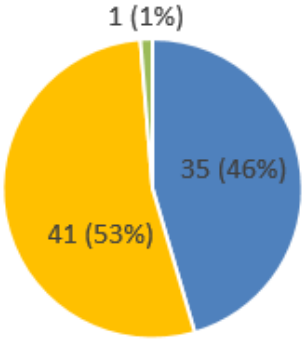

Statistics related to member characteristics are based on the users registered on the ILIAS intranet.
